## New Data on trade in value-added terms

## World Trade Statistical Review 2017

*World Trade Statistical Review 2017* looks into the latest developments in world trade, with a detailed analysis of the most recent trends for trade in goods and services. The publication also looks into trade in value-added terms and the latest trade policy developments, highlighting recent trends in WTO members' use of trade-restrictive and trade-facilitating measures. In addition, it provides information on the participation of developing economies in world trade, Aid-for-Trade financial commitments and implementation of the WTO's landmark Trade Facilitation Agreement.

The analytical chapters are complemented by a statistical appendix of over 60 tables providing comprehensive data on various facets of world trade in goods and services.

## World Tariff Profiles 2017

*World Tariff Profiles 2017* provides comprehensive information on the tariffs and non-tariff measures imposed by over 170 countries and customs territories. Cross-country comparison tables are followed by one-page profiles for each economy, with a detailed breakdown of tariffs by product and the tariffs imposed by major trading partners. This is followed by a section on the use of non-tariff measures, which are becoming increasingly important in international trade.

The special topic in this year's edition is "export diversification", which analyses to what extent economies have diversified their exports over time.

A joint publication of the WTO, International Trade Centre (ITC) and the United Nations Conference on Trade and Development (UNCTAD).

## Trade Profiles 2017

*Trade Profiles 2017* provides a series of key indicators on trade in goods and services for 196 economies, highlighting the major exports and imports for each economy as well as their main trading partners. For each profile, the data is presented in a handy two-page format, providing a concise overview of global trade. For merchandise trade, exports and imports are broken down by main commodity groups and by major trading partners. Top exports and imports are listed for agricultural products and non-agricultural products. For trade in commercial services, data is provided for transport, travel, other commercial services and goods-related services. Statistics on intellectual property are also provided.
